

OneCare Vermont

## Care Navigator User Guide

11/01/2019

Version 2.1

# Welcome

Care Navigator™ (CN™) is secure, HIPAA compliant, web-based software being deployed by OneCare Vermont to support effective care coordination for our participating Providers and Collaborators. The CN™ tool works to streamline communication among care team members, patients, and their support systems. Claims data is uploaded into the system and provides key utilization metrics, diagnoses, and Accountable Care Organization (ACO)/Insurance information. The continuum of care providers enter information on current care coordination status, acuity level, care team member involvement, participation in community programs, as well as other pertinent patient information. The Shared Care Plan identifies goals and barriers that can be updated by all care team members.

Access to CN will be given to those organizations who hold a Participant or Collaborator Agreement with OneCare Vermont (OCV). These organizations include hospitals, medical practices, home health agencies, designated agencies, councils on aging and housing organizations.

This document will serve as a resource for learning and navigating through the Care Navigator™ system. You will find the following information which will be helpful as you begin using the tool for your patient assignments, workflows, and care management functions.

**To report issues, or if you need assistance with troubleshooting, please contact the OneCare Operations Help Desk.**

**Email: [HelpDesk@OneCareVT.org](mailto:HelpDesk@OneCareVT.org) or call (802) 847-7220, Option 2**

## Obtaining Access

1. **Access Requests:** For individuals who are requesting access, please contact our OneCare Vermont Operations Department via telephone at 802-847-7220, Option 2 or email at [HelpDesk@OneCareVT.org](mailto:HelpDesk@OneCareVT.org)

**Completion of Required Documentation:** Prior to obtaining access you will need to complete the OneCare Vermont User Access Request Form. For further information on how to obtain and complete these forms, please contact our Operations Department via at telephone 802-847-7220, Option 2 or email via at [HelpDesk@OneCareVT.org](mailto:HelpDesk@OneCareVT.org).

2. **Notification of Access:** Once your request is processed you will receive the email notification below from the following email address: [no-reply@mycarenav.com](mailto:no-reply@mycarenav.com).

\*\*\*\*\*This is an automated email. Please do not reply to this email. \*\*\*\*\*

OneCare Vermont

Dear < Care Coordinator's Name >,

Congratulations! Your account has been activated in Care Navigator™. The Care Navigator™ application will allow you access to patient information specific to your permissions identified through the user access assignment process.

Please use the information below to log into Care Navigator™.

Username: <username>

Password: <password>

To keep your account safe and prevent unauthorized access, you will be asked to change your password during initial Log in. Once changed, you will need to Log in using your newly created password.

Technical Support:

If you have any questions about the application, have trouble logging in, or experience any technical issue, please contact OneCare Vermont Operations Help Desk at [HelpDesk@OneCareVT.org](mailto:HelpDesk@OneCareVT.org) or 802-847-7220, Option 2 for assistance.

Thank you!

Care Navigator™ Support Team

## Supported Browsers/Operating Systems

While any browser can be used for day-to-day Care Navigator activities, Internet Explorer is the preferred browser. The following are recommended minimum supported browsers and operating systems for Care Navigator:

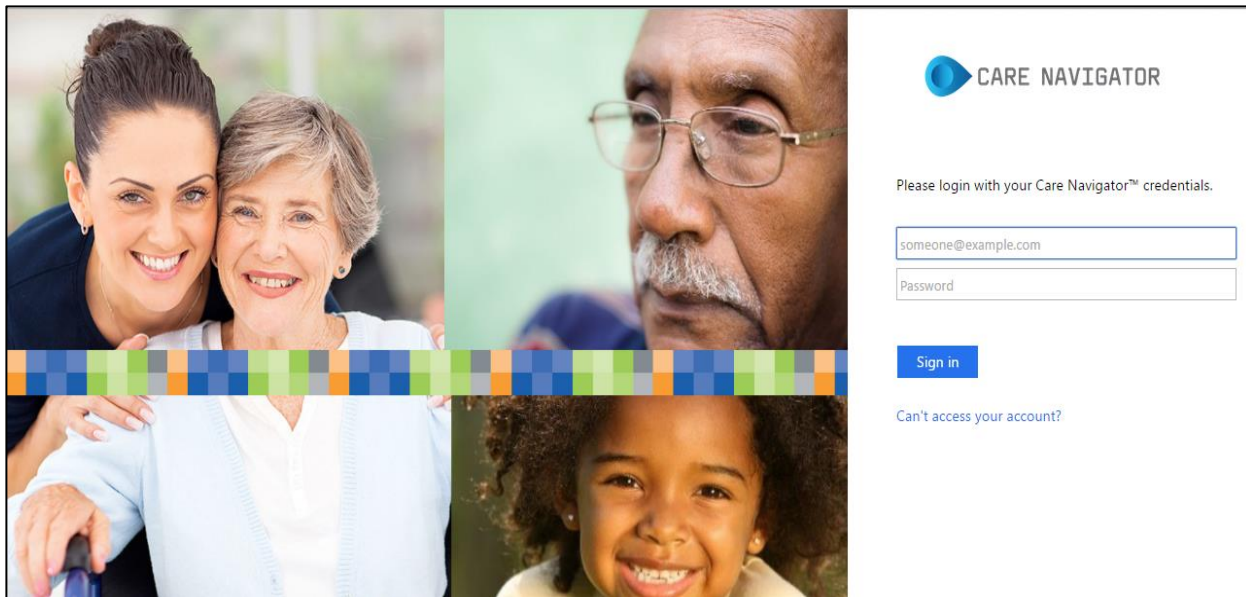

**Internet Explorer** (preferred browser)

**Google Chrome**

**Mozilla Firefox**

## Initial User Log-In

1. Go to the URL for CN Hub <https://onecare.mycarenav.com/>
2. Enter your username and password provided via email notification from the OneCare Vermont Help Desk and click on Sign In
3. This will prompt you to create a new password and then confirm the new password. **Please do not save your username and password to your browser as it interferes with the password reset process**
4. Enter your username and NEW password to access the system

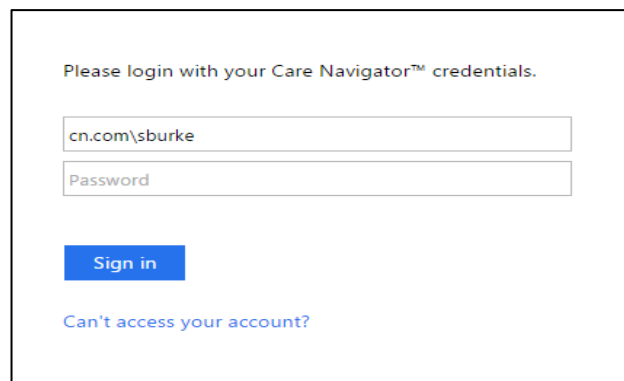

### 1 Standard Log-in Screen

#### A. Password Policy Guidelines

- a. The password must be at least 8 characters
- b. The password cannot be any of your previous 25 passwords
- c. The password cannot contain your first or last name
- d. The password cannot contain your username
- e. The password must contain characters from three of the following categories:
  - i. Uppercase Letters, Lowercase Letters, Base 10 digits (0-9)
  - ii. Non-alphanumeric characters (special characters -!, \$, #, %)

- B. Once you have entered and confirmed your new password, please log in with your newly created password, click sign in.

Please login with your Care Navigator™ credentials.

Submit Cancel

## User Roles

### User Role Definitions:

User roles are determined by level of access to Patients' Protected Health Information (PHI) and are as follows:

1. **Level II:** Access to all patients' PHI in populations served within the user's organization. Person with full access to the functionality within a business unit. A person who assigns patients to specific care coordinators and oversees care coordination activities for an assigned business unit.
2. **OneCare Level of Access:** Access to all patients' PHI in the OneCare Network and functionality across all contracted Organizations. A person who assigns patients to specific care coordinators and oversees care coordination activities for OneCare business unit and/or HSA. This access is applicable only in certain situations and must be approved by OCV.

## Levels of Access

Access to PHI varies within user roles based on HIPAA's minimum necessary rule. Access to PHI will be based on the minimum amount of patients' information needed to accomplish the coordination of care for a specific population and will be based on the factors below:

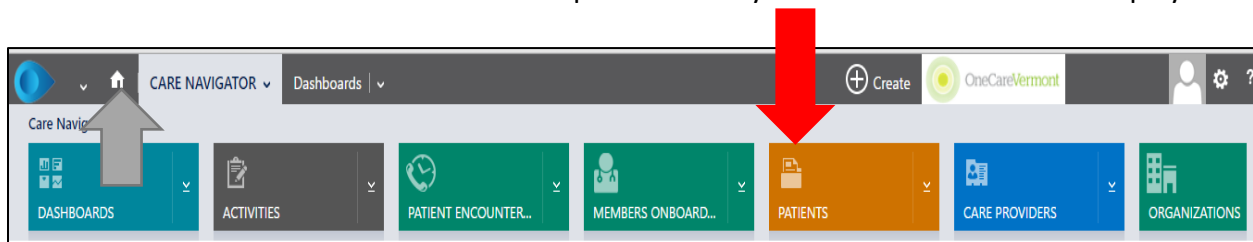

1. Age Group
2. Geographic Area
3. Hospital and Medical Practice
4. Insurance Plan

## Level II Users

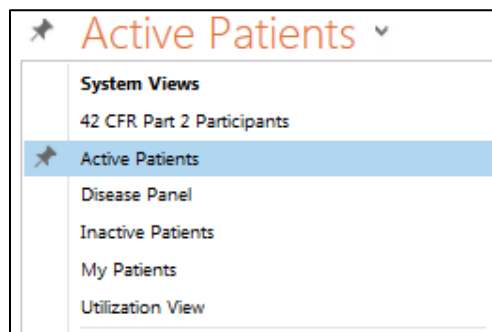

### List of Active Patients:

Level II Users will have access to a list of patients who are attributed to their organization. To view the Active Patients list:

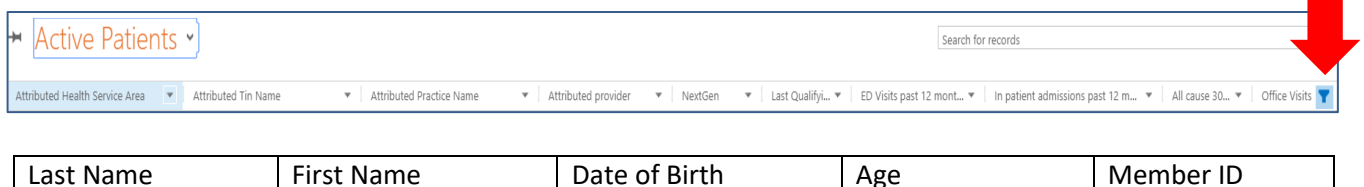

1. Hover over Care Navigator in the tool bar and choose 'Patients'
2. Click on 'Patients' and a list of active patients who you have access to will be displayed:

3. To see all patients: Check that the Active Patients option is chosen in the drop-down list:

4. To sort patients using data points click on the funnel to turn on filtering capabilities. Once the filter has been activated, the sorting capabilities below will be available:

Payer	Care Coordination Level	Revised Care Coordination Level	Care Coordination Status	Acuity Level
Lead CC	SCP Initiated	SCP Created	Attributed Health Service Area	Attributed TIN Name
Attributed Practice Name	Attributed Provider	Last Qualifying Visit	ED Visits past 12 months	Inpatient Admissions past 12 months
All Cause 30-day Readmissions	Office Visits	Home Health Visits past 12 months	Hospice Day past 12 months	Total Paid
Modified On				

**5. Patient Search:** patients are searchable by the following method:

- Complete all or a portion of the first name
- \*
- Complete all or a portion of name

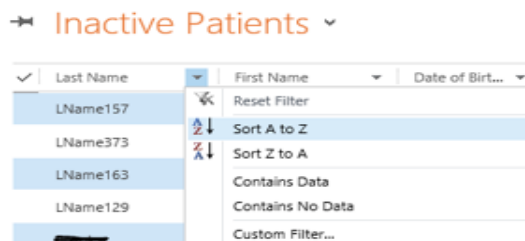

**6. Searching for Inactive Patients:**

- Change to Inactive Patients view at dropdown and turn on filter:

→ Inactive Patients

✓	Last Name	First Name	Date of Birth ↑	Member ID	Risk Category	Care Coordination Status	Lead CC	Acuity Level	Attributed Health Service Area	Attributed Tin Name	Attributed Practice Name	Attributed provider	In patient adm: ▼
	LName157	FName157	5/8/1930			Moved	Abigail Tobias	3. Weekly contact

## Care Coordinators

### My Work

Care coordinators are assigned patients by Level II Users or **by someone with** OCV Level of Access, and will only have access to patients assigned to them. When the user logs in, they come to the My Work screen, which gives an overview of the following sections: User Inbox Unread, Event Notifications Unread, and My Patients, What's New, My Appointments, and My Tasks

- Home button:** Click on the home button  on the top left of the screen to come back to this page from any place in the system
- Panel Dashboard:** Click on drop down icon next to My Work and chose Panel Dashboard

## Shared Care Plan

The Patient's Shared Care Plan (SCP) is the plan of care that is a reflection of the collaborated effort among the patient's care team. The care coordinator will populate these fields within Care Navigator.

### Viewing the Shared Care Plan

**Shared Care Plan Document:** To view the printable version of the Shared Care Plan, click on the icon above the patient name (**pictured below**)

To export this document to a PDF version as pictured below take the following steps:

1. Click on the disk icon in the top blue ribbon above the document
2. Choose the format you wish to convert the document into
3. Choose to Open or Save the document

## 42 CFR Part 2 Tracking

Patient records can be marked and tracked for 42CFR Part 2 re-disclosure notification compliance. When a patient has a 42CFR Part 2 consent completed and uploaded in the system, an alert can be turned on as displayed below:

PATIENT : PATIENT DETAILS ▾

**Gail Matthews (Test Patient)**

DoB *	12/15/1938	Age	79	Lead CC	<a href="#">Elizabeth Roach</a>
Phone (Primary)	(802) 847-3456	Contact Method	Voice call	Comm Challenge	Visually Impaired
Primary Contact	Poppi Landrey, dtr	Primary Contact #	802-123-5689	Data last refreshed	

**42 CFR part 2 prohibits unauthorized disclosure of these records**

When a 42CFR Part 2 Consent is completed and uploaded, the following steps should be taken to record this in the patient record:

1. Upload 42 CFR Part 2 Consent into the Document section (see section on 'Documents' on the process to upload a document). The 42CFR consent will reside in the Document section

Documents			
Document Name	Document Type	Uploaded On ▾	Uploaded By
GMatthews 42CFR consent	42 CFR Part 2 Consent	5/7/2018	Robyn Skiff

2. In the 'Patient Details' section, check the box next to the '42 CFR Part 2' box and enter the date the patient signed the consent

- The banner below will display in the patient header when the box is checked off to notify the care team the consent is on file

Received notification from Gail and Robyn to attend care conference next week, able to attend on Friday morning - looking forward to it! I will check in with Dr Smith on Wednesday to alert him and ask if he has any recommendations for discussion. Have a great week!  
Sarah Jemley - 1/29/2018 4:33:34 PM

Gail moved in to Ashland Terrace independent living last week and is adjusting well. Care Conference scheduled with Choices for Care Case Manager and RN Coordinator from Dr. Smith's office and patient next Friday at 10am.  
Robyn Skiff - 1/29/2018 4:17:13 PM

## Entering a Post

Under 'Activities and Notes' click on 'Posts' and enter information that can be viewed by all Care Team Members. Use this when you want others on the care team to see an important but not urgent update in their What's New feed the next time you log in. Encounter log entries and Care Team Notifications will also flow into the 'Post' section.

## Event Notifications

Event Notifications are daily feeds coming from Patient Ping and VITL. Care team members are notified in real-time by email of any admissions, discharges and transfers (ADT feeds) when they are part of a patient's care team (see 'My Work' section). These feeds provide information about patients who have experienced changes in levels of care on a real-time basis. To see the details of the Event Notification, click on the record to open the message.

## Care Team Notifications

The Care Team Notification feature allows members of a care team to alert other team members of key events or communications related to common patients. When the Notification message is completed and sent, recipients then receive an email alert with a link that prompts them to sign into Care Navigator. Upon signing in with their credentials, the user will be brought directly to the relevant patient's page to view the information. Notifications can also be viewed on the Care Navigator Homepage under 'My Unread Notifications'.

To Send a Care Team Notification:

1. Click on 'Send Notification' in top toolbar of the patient's dashboard to open the notification feature. The Notify Care Team Member(s) menu will open:

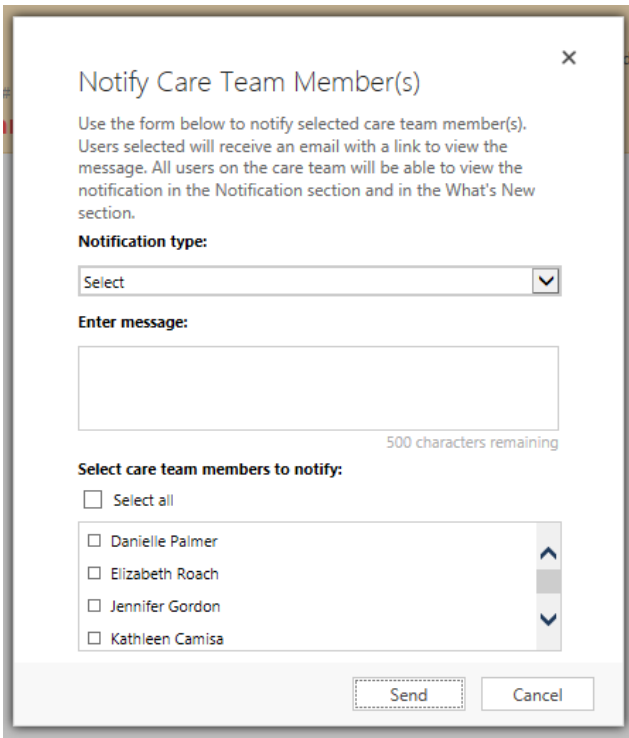

The screenshot shows the patient dashboard for Gail Matthews (Test Patient). The top toolbar contains the following buttons: UPLOAD DOCUMENT, SHARED CARE PLAN, ASSIGN CARE PROVIDER, SEND NOTIFICATION, and UNFOLLOW. A red arrow points to the SEND NOTIFICATION button. Below the toolbar, the patient's name and details are displayed. The details are organized into a table-like structure with two columns.

PATIENT : PATIENT DETAILS	
Gail Matthews (Test Patient)

**42 CFR part 2 prohibits unauthorized disclosure of these records**

7. Select a Notification Type using the drop down on the right.
8. Enter a simple message with no protected health information. No more than 500 characters
9. A User can select either specific Care Team Members or all Care Team Members by choosing 'Select All' to send the notification to

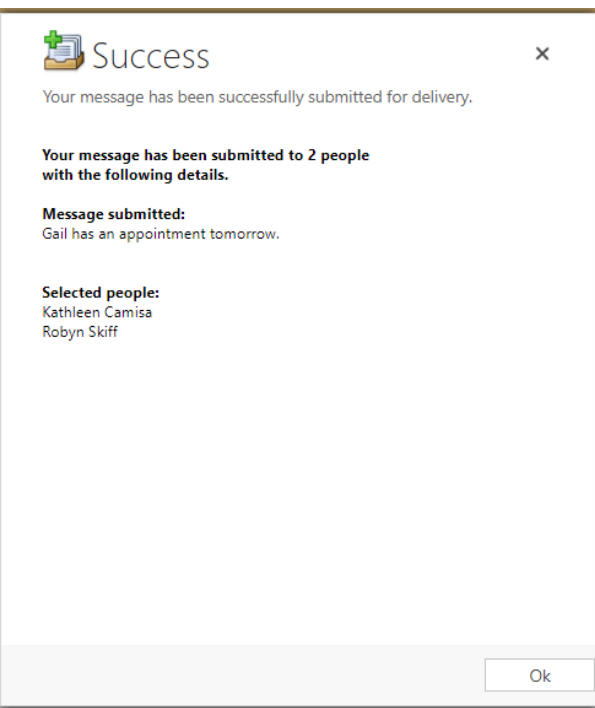

10. Click the 'Send' button to send the notification

The screenshot shows a dialog box titled "Notify Care Team Member(s)". It contains a dropdown menu for "Notification type" with "Select" chosen. Below it is a text area for "Enter message:" with a "500 characters remaining" indicator. Underneath is a section "Select care team members to notify:" with a "Select all" checkbox and a list of four names: Danielle Palmer, Elizabeth Roach, Jennifer Gordon, and Kathleen Camisa, each with an unchecked checkbox. At the bottom right are "Send" and "Cancel" buttons. A red arrow points to the "Send" button, and another red arrow points to the "Enter message:" text area.

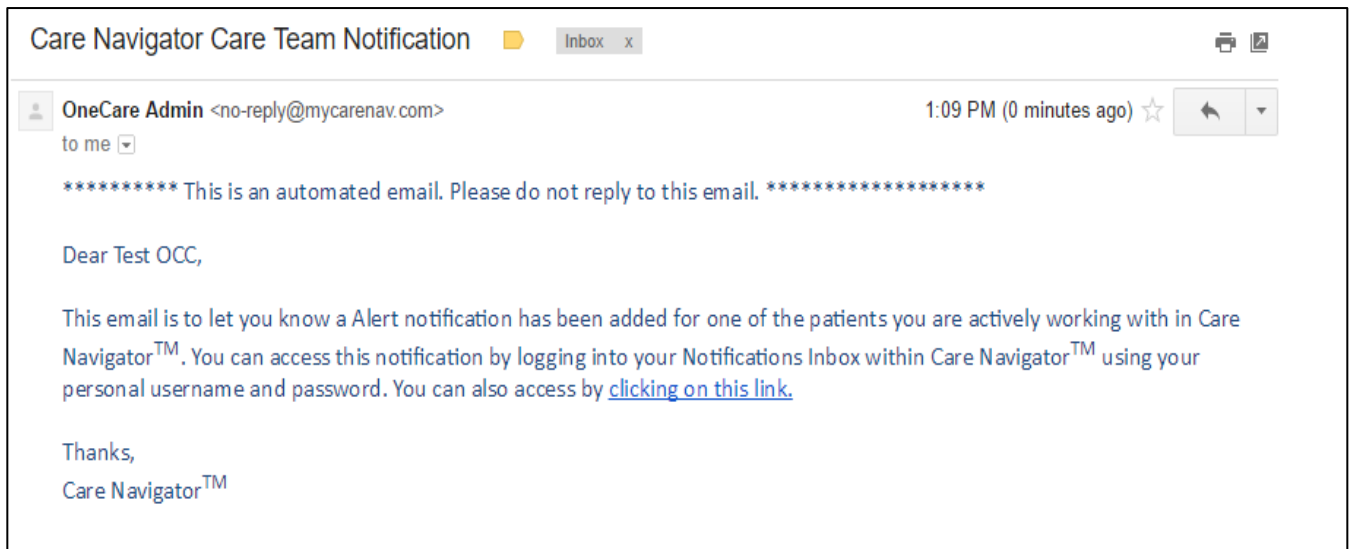

11. After the success message shown below:

notification is sent a box will appear as

The screenshot shows a "Success" dialog box. It contains the text: "Your message has been successfully submitted for delivery." Below this, it says: "Your message has been submitted to 2 people with the following details." Then, under "Message submitted:", it says: "Gail has an appointment tomorrow." Under "Selected people:", it lists "Kathleen Camisa" and "Robyn Skiff". At the bottom right is an "Ok" button.

12. Notification Email: Recipients will receive an email to the address they have registered with when completing their User Agreement. Please contact the [helpdesk@onecarevt.org](mailto:helpdesk@onecarevt.org) if your email address has changed since initial registration.

## Encounter Log

The Encounter Log is an area for a care coordinator to reflect meaningful interactions with the patient or the patient's care team.

### Patient Encounter Log Entry:

1. Select 'Encounter Log' on the patient detail screen to add an encounter for the patient:

**PATIENT: PATIENT DETAILS ▾**  
**Gail Matthews (Test Patient)**

<b>DoB *</b>	<b>12/15/1938</b>	<b>Age</b>	<b>79</b>	<b>Lead CC</b>	<b>Robyn Skiff</b>	<b>CC Status</b>	<b>Needs Outreach</b>

- The care coordinator can choose one or more reasons for seeing a patient under 'Encounter Purpose'.

**Encounter Purpose**

Care conference – patient not present	<input checked="" type="checkbox"/>
Care conference – patient present	<input checked="" type="checkbox"/>
Disease Management	<input checked="" type="checkbox"/>

#### Encounter Notes:

- A brief note describing the care team member's interaction with the patient can be recorded in this section, and should include next steps or outcomes related to care coordination.

## Care Coordination

This section gives an overview of the patient's current and historical involvement with care coordination:

- The user can open the Care Coordination menu by single clicking on the header, with the options below viewable upon opening:
  - a) Care Coordination Level
  - b) Care Coordination Status
  - c) Acuity Level
  - d) About Me
  - e) My Strengths
  - f) Care Team Members
  - g) Family Members
  - h) ACO/Insurance Information

1 - 4 of 16

1 - 4 of 35

1 - 4 of 27

- a. **Care Coordination Levels:** (Very High, High, Medium, or Low): A non-editable field fed from our data warehouse based on the Risk Category at the start of the year. This level will not change for the entire year.

**Revised CC Level:** An editable field that allows users to record changes in a person's care coordination level when warranted to account for changes in the patient's condition and social determinants of health that are not accounted for in claims data. Click on the '+' sign to add a revised level.

- b. **Care Coordination Status:** This field reflects the level of engagement with care coordination (see definitions below):

1	Needs Outreach	Care coordination needs have been identified and patient is in need of outreach from a care coordination resource
2	In outreach	Care coordination service provider is actively attempting to contact patient for coordination of care services
3	Engaged	Patient is actively involved with care coordination service provider(s)
4	Reengaged	Patient was involved with care coordination service provider (s), was closed out for some reason, and services have since been reinitiated
5	Care Coordination Completed	Patient was actively involved with care coordination service provider (s). Services have been delivered and goals met.
6	Declined	Care coordination service (s) offered and the patient declined
7	Care Coordination not needed	Record review or other method of assessment indicates that a care coordination service (s) is not required at this time
8	Moved	Out of state resident with non-OCV PCP attribution
9	Ceased Participation	Care coordination service provider has lost contact with patient
10	Deceased	Note: Fill out date of death if this information is available

**Deceased Date:** If 'Deceased' is selected from the drop-down menu in the Care Coordination Status, and the deceased date is known, the care team member can enter the date.

c. **Acuity Level:** Indicates the frequency of interaction needed either directly or indirectly with the patient. You may select one of the following options:

1. Needs daily contact
2. More than weekly contact
3. Weekly contact
4. Contact every 2 weeks
5. Contact monthly
6. Contact less than monthly

The screenshot shows a dropdown menu for 'Acuity Level' with the following options: 1. Needs daily contact, 2. More than weekly contact, 3. Weekly contact, 4. Contact every 2 weeks, and 5. Contact monthly. Below the dropdown is a table header with 'Created On' and 'Acuity Level'. The table body contains the text 'No Acuity Level History records found.'

- To view your options in the Care Coordination Status or Acuity Level hover over the dialogue box and make your selection.

The screenshot shows the 'CRM for Outlook' interface for a patient named Gail Matthews (Test Patient). The page includes a header with navigation links, a patient details section with fields like DoB, Age, Lead CC, and CC Status, and a 'Revised Care Coordination Level History' table. A red banner at the bottom of the patient details section reads: '42 CFR part 2 prohibits unauthorized disclosure of these records'.

**Patient Details:**

- DoB: 12/15/1938
- Age: 79
- Lead CC: Elizabeth Roach
- CC Status: Engaged
- Phone (Primary): (802) 847-3456
- Contact Method: Voice call
- Comm Challenge: Visually Impaired
- Acuity Level: 3. Weekly contact
- Primary Contact: Poppi Landrey, dtr
- Primary Contact #: 802-123-5689

**Revised Care Coordination Level History:**

Care Coordination Level Status	Reason	Date	Patie	Created On	Care Coordination Status	Created On	Acuity Level

Low Risk		5/25/2018 1:0...	Gail M	8/15/2018 11:41 AM		1/29/2018 3:22 PM	3. Weekly contact

#### d. About Me:

The 'About Me' section is based on your interactions with the patient. These important person centered fields help the team see the whole person.

These are free text fields, except for the Physical Mobility and Mode of Transportation, where the user must select from the drop-down menu to populate these fields. The ED/Crisis plan field is where information can be added regarding the Patient's preferences for how to handle a crisis. If a more detailed Crisis Plan is uploaded into the documents section then 'Crisis Plan Uploaded' box should be checked.

<https://onecare.mycarenav.com/userdefined/edit.aspx?etc=3234&pld=%7b3f9f6d32-c587-e>

- Care Provider Type: Defaults to Care Coordinator but other roles can be viewed or chosen
- Role: Default to Care Coordinator, or look up more records for other roles that can be chosen
- Name: Add the name of the Care Team Member by searching in the drop-down list
- Lead CC: Identify 'Lead Care Coordinator'- If the individual is the lead care coordinator, check this box. This will identify the lead care coordinator on the header in the dashboard as well as in the list of care team members. To change the lead care coordinator, uncheck the LCC box identifying the current lead and check 'Lead CC' box for the new lead care coordinator. After making changes click the refresh button at the top of the page to display in the header
- PCP: Select this checkbox if care team member is the Primary Care Physician
- Emergency Contact: Select this checkbox if the patient has identified an Emergency Contact and populate who the patient has indicated in the Description field
- The proxy box can also be checked if this is applicable

5. Select 'Save' to stay on this page or 'Save & Close' to save the connection and role of the new care team member. The new care team member will appear in the care team member box.

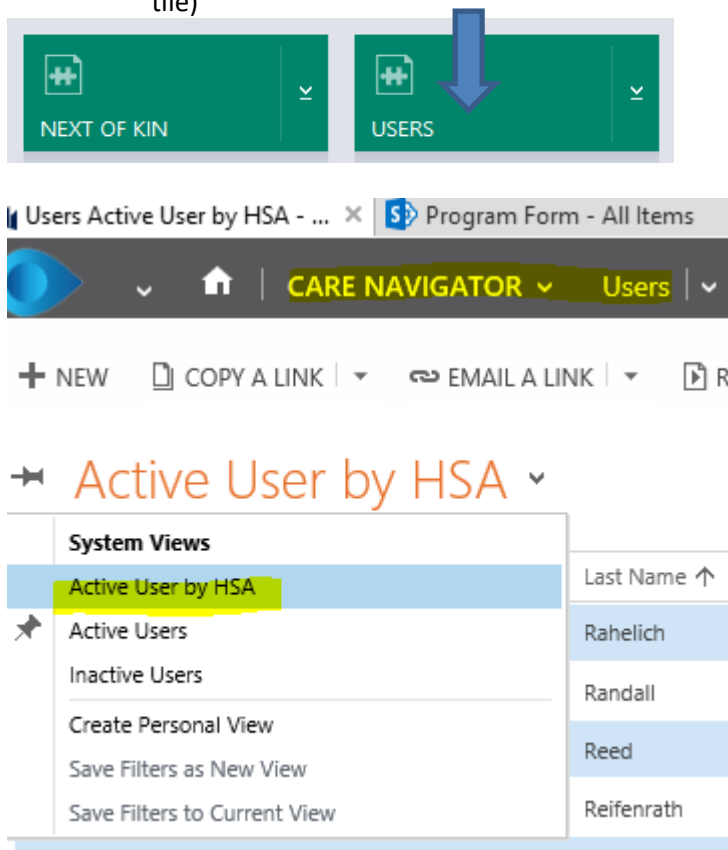

- When a care team member is added, they will then have access to the patient information and the patient will appear on their 'My Patients' list.

### Searching for other Care Navigator Users:

The following steps can be completed to identify other registered Care Navigator users:

- i. Hover on the Care Navigator Icon
- ii. Choose the 'Users tile' (to find, arrow all the way to the right, the 'Users' tile will be the last tile)

- iii. You can filter by HSA in this view and export to excel if desired.
- iv. Note when you click on a letter at the bottom that that will bring you to a user with the last name of the letter you click on. Example if you click on A that will give you all users with the last name that start with A.

## ACO Insurance Information

The information populating this section is supplied by claims data feeds and is not able to be edited. This information indicates the connection the patient has to the Accountable Care Organization (ACO) as well as the Attribution History. Patients in care, who are no longer attributed, can continue in care coordination for the remainder of the calendar year, but claims data will not continue to update.

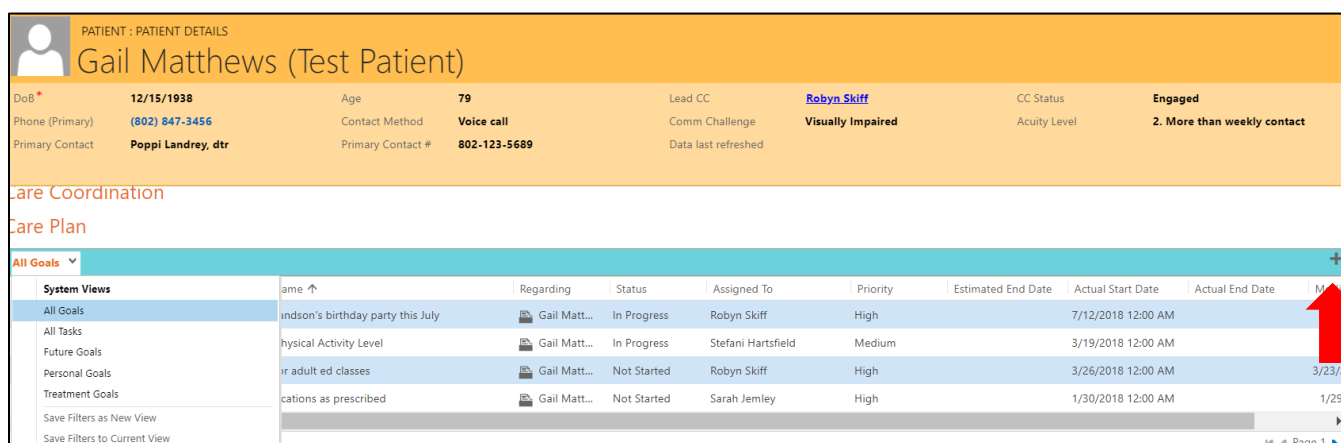

The screenshot displays the OneCareVermont patient portal interface. At the top, the navigation bar includes 'CARE NAVIGATOR', 'Patients', and the patient's name 'Gail Matthews (Test Patient)'. Below the navigation bar, there are action buttons: 'UPLOAD DOCUMENT', 'SHARED CARE PLAN', 'ASSIGN CARE PROVIDER', 'SEND NOTIFICATION', and 'FOLLOW'. The main section is titled 'PATIENT : PATIENT DETAILS' and features a profile card for 'Gail Matthews (Test Patient)'. The card contains the following information:

DOB	12/15/1938	Age	79	Lead CC	Robyn Skiff	CC Status	Engaged
Phone (Primary)	(802) 847-3456	Contact Method	Voice call	Comm Challenge	Visually Impaired	Acuity Level	2. More than weekly contact
Primary Contact	Poppi Landrey, dtr	Primary Contact #	802-123-5689	Data last refreshed			

Below the profile card, the 'ACO/Insurance Information' section is visible. It includes fields for 'Attributed Health Service Area', 'Attributed ACO', 'Payer', 'Member ID', 'Attributed TIN', 'Attributed Provider', 'Attributed Practice', 'Beneficiary Medicare Status', 'Dual Status Description', 'NextGen', and 'RWJF Grant'. To the right of this section is the 'Attribution History' table, which has columns for 'Date' and 'Attributed Tin'. The table shows a single entry for '7/12/2016'.

## Care Plan-Adding Goals and Tasks

- a) **Patient's Care Plan:** The Shared Care Plan is created based on the work completed by the care team members associated with the patient.

- Adding Goals to the Care Plan:** Under the 'Care Plan' section of the patient dashboard click on the '+' to open the menu to create a goal.
- Activity Level:** Choose 'Goals'
- Goal Category:** A list of categories taken from the Camden Domain Cards is provided to choose from, and is useful in categorizing patient goals.
- Goal Type:** Choose if the goal is 'Personal, Family, Treatment or Future'
- Activity Name:** Enter a brief description of the goal the patient wishes to achieve.
- Description:** More details can be written regarding the goal, but this information will not display in the Shared Care Plan (optional)
- Assigned to:** Hover over this area and a magnifying glass will appear with a list of current care team members. Choose the care team member or the patient who will be responsible for the completion of the goal.
- Add Priority:** This will automatically be defaulted to Medium, but can be changed as appropriate to Low or High.
- Add Dates:** Actual start date and estimated end date
- Click Save:** Once the goal has been saved a task can be associated with the goal.

### Tasks

Activity Name ↑	Regarding	Status	Assigned To	Priority	Estimated
No Task records found.					

1. Click on Plus (+) sign to the right of the 'Tasks' Header
2. **Activity Level:** Will default to 'Task'
3. **Goal Category:** Will default from the goal page
4. **Goal Type:** Will auto default from goal page
5. **Activity Name:** The clients brief description of the task
6. **Description:** More details can be provided regarding the task, but this information will not be displayed in the Shared Care Plan (optional)
7. **Assigned to:** Hover over this area and a magnifying glass will appear with a list of current care team members. Choose the care team member or the patient who will be responsible for the completion of the task
8. **Add Priority:** Medium is auto populated, you can choose from High, Medium, or Low
9. **Status:** Choose the status of the task
10. **Add dates:** Actual start/end date and estimated end date
11. Click **Save & Close** to save the Task, and then the '+' sign again to create another task.

- b) Dates the Shared Care Plan was Initiated and the Shared Care Plan was Created (the date when two goals with two tasks on each goal are on the patient's record) are system fed and are displayed as below:

SCP Initiated	1/29/2018	SCP Created	1/29/2018
---------------	-----------	-------------	-----------

- c) **Challenges and Barriers Categories:** The care coordinator can work with the patient to identify any challenges or barriers the patient may be experiencing preventing the patient from meeting their identified goals. This area can be used to reflect underlying social determinants of health the patient may be experiencing. Below are the 'Challenges and Barriers' domains:

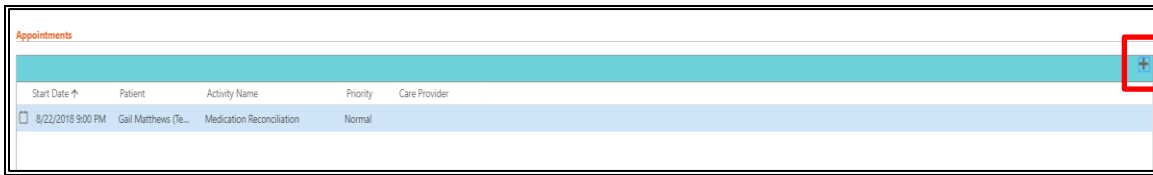

Challenges/Barriers Categories	
Access	Language
Access to care	Legal Assistance
Addiction	Limited mobility and/ or ability to complete ADLs
Childcare	Literacy
Cognition	Medical diagnosis is unclear
Communication among providers	Mental Health
Diagnosis of Autism/Emotional Maturity	Physical Health
Eligibility	Single Parent
Financial	Symptoms are not well managed
Hearing deficit	Transportation
Housing	Visual Deficit

## II. Adding A Challenge/Barrier:

- Go to the 'Challenges/Barriers' section of the Care Plan and click on the '+' sign.
- The 'New Barrier' Screen will be displayed
- Type of Barrier:** Double click on the magnifying glass to bring up the items to choose from, also listed above
- Barrier:** Type in a brief description of the barrier using the patient's words. This will populate on the shared care plan
- Action Plan:** A description of how the barrier can be addressed
- Click **Save & Close**

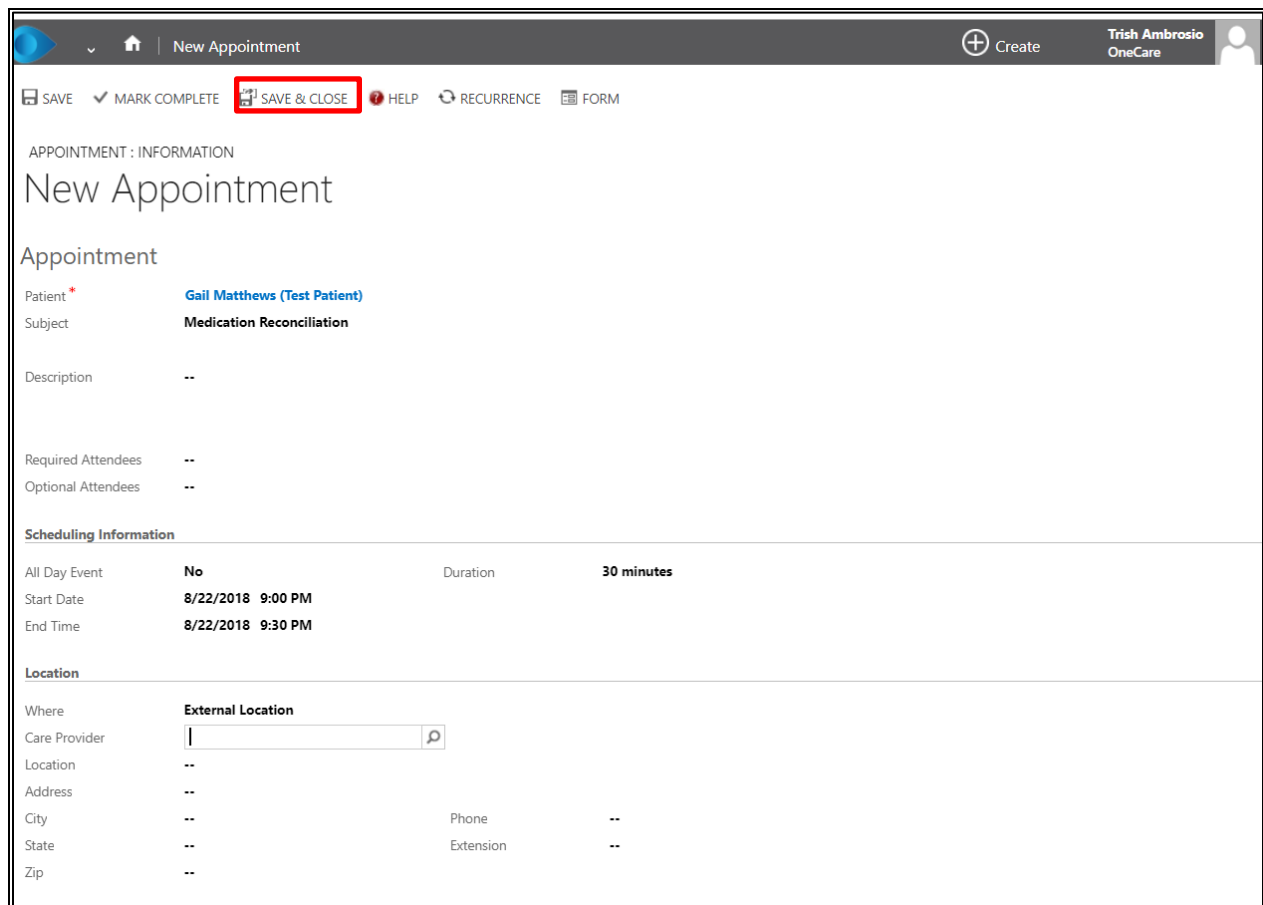

## Appointments

The user can enter any one-time or recurring appointments to track the patient in this section.

## Trouble Shooting

This section outline types of errors a user may encounter, and how to report errors to the OneCare.

### Business Process Errors

Users may occasionally see an error with the title 'Business Process Error'. In this case, the user should read the message carefully and if it is not clear what steps the user should take, contact the OneCare Vermont Operations Department via telephone: 802-847-7220, option 2 or email:

[HelpDesk@OneCareVT.org](mailto:HelpDesk@OneCareVT.org)

### Access Errors

Users have permissions based on their role. If a user sees a permission error that is unexpected, contact the OneCare Vermont Operations Department via telephone: 802-847-7220, option 2 or email:

[HelpDesk@OneCareVT.org](mailto:HelpDesk@OneCareVT.org)

### How to Report Errors - Telephone

Users should follow the instructions below when trying to report a system application error by phone:

1. Contact OneCare Operations Help Desk at (802) 847-7220, option 2
2. Provide help desk with your user name
3. Outline the steps taken that created the error and share all pertinent information
4. Operations Help Desk will log into the application to try and recreate the error and report directly to the Care Navigator Team
5. Follow up will occur within in 1 business day

### How to Report Errors - Email

Users should follow the instructions below when trying to report a system application error by email:

1. Contact the Help Desk at [HelpDesk@OneCareVT.org](mailto:HelpDesk@OneCareVT.org)
2. Subject Line: Care Navigator System Application Error
3. Provide a synopsis of the error the end user is experiencing
4. Outline the steps taken that created the error
5. Share a screen shot of the error using the copy and paste functionality or your snipping tool
6. The Help Desk will work all email notifications within 1 business days
