

Care Navigator Filtering and Personal Views

Log in at <https://onecare.mycarenav.com>

User Support: HelpDesk@onecarevt.org or (802) 847-7220 Option 2

Filtering:

1. From your home screen go to My Active Patients. Click on the grid.

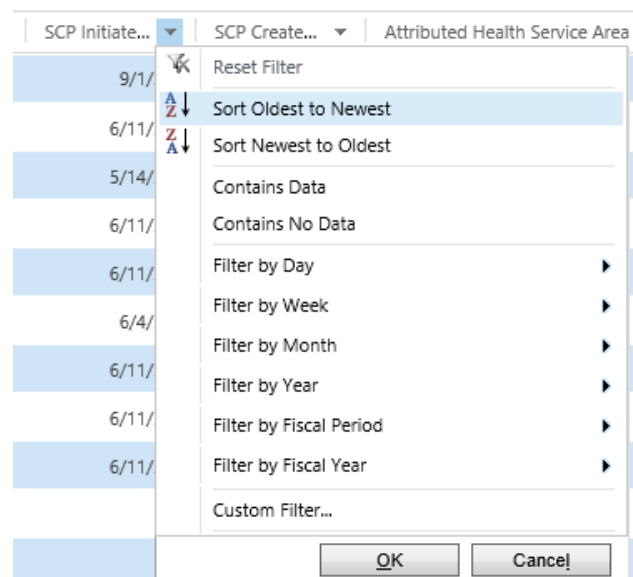

My Active Patients ▾

2. From here you can choose to filter on My Active Patients or click the down arrow next to My Active Patients and chose Active Patients if you want to expand your filtering.

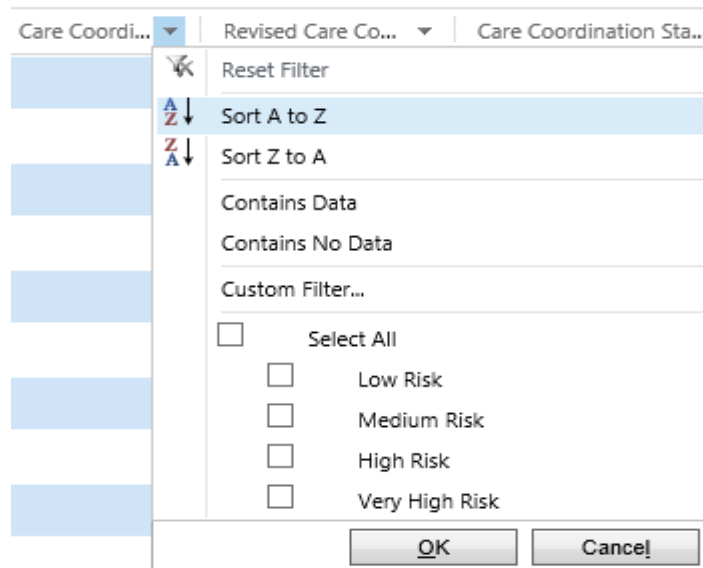

3. Turn your filter button on. It is the funnel shaped icon 
4. You can filter on any of the fields in the grid line. For example if you wanted to filter on the SCP Initiated you would: Click on the down arrow next to SCP Initiated.
5. Then you could either do a Custom Filter or filter by Contains Data, or any other option

6. Once you chose what criteria you want to filter on it will return a list of patients that have an SCP Initiated and show you the date the SCP was initiated.

7. Depending on what column you choose to filter on you can create a Custom Filter, Contains Data or check boxes of criteria you want to see. Each column offers various options to filter.

8. You can continue to refine your filter in any of the columns and it will continue to display the information you wish to filter on.

Saving Filters as a New View

9. Once you are done filtering you can save as a new view. You will need to click on the drop down arrow next to My Active patients or Active Patients depending on which criteria you are use
10. Scroll down to Save Filter as New View 
11. You will then see a box pop up that says Save as new View

Save as new View ×

The view is stored in the list of saved views.
