Medicaid Quality Scorecard Introduction

- ❑ The Vermont Medicaid Next Generation (VMNG) Program began in 2017 with four HSAs and expanded to ten participating HSAs in 2018.
- ❑ A combination of claims and clinical quality measures are included in the calculation of the overall quality score.
- ❑ The measure status in 2017 and 2018 is indicated for each measure, as well as the respective years rates compared to the national benchmarks.
- ❑ Quality points were only awarded to payment measures (indicated by "P") on a scale of 0 to 2. Payment measures that did not have available benchmarks were awarded full points.
- ❑ OneCare scored at the 50th percentile or above for all but one of the payment measures with available benchmarks, earning a composite score of 85.0%.
