What does OneCare do?

OneCare is a community of health care providers driving system change and improvement by leveraging innovation, information, investment, access and education.

INNOVATION	INFORMATION	INVESTMENT	ACCESS	EDUCATION
Developing flexible, effective models to improve the quality of care.	Delivering insights from data to drive health care decision making.	Containing costs by delivering payment reform and financial incentives for improved health outcomes.	Connecting providers to support consistent and affordable health care delivery to Vermonters.	Offering educational opportunities to share best practices that improve quality and reduce variability.
